DISINFECTION SERVICES

For over 33 years, Thompson has provided advanced industrial cleaning, sanitizing and disinfection services near you and throughout the United States.

We share in your commitment to health and safety, especially during serious viral outbreaks. Our highly trained teams follow CDC and OSHA guidelines as your trusted disinfection partner in creating a safer, cleaner environment for returning employees and customers. We provide the following tailored solutions to serve all of our clients' varying budgets and levels of service needs.

Call us today to get started on your site-specific disinfection plan: 803-934-0138 or 800-849-8040.

What level of service do you need?

	COMMERCIAL + JANITORIAL	INDUSTRIAL + EMERGENCY
Known pathogen (COVID-19)		•
Hard surface application	•	•
Multi-surface application		•
Low personnel traffic	•	•
Medium or high personnel traffic		•
Repetitive/ongoing service	•	•
Pre-scheduled	•	•
Emergency response		•
Offices, gyms, churches, etc.	•	•
Critical operations (industrial, high risk, higher level disinfection)		•
General disinfecting at lower cost	•	

COMMERCIAL DISINFECTION

Our disinfecting teams are specially trained and equipped to disinfect and provide general janitorial services to your facility, especially as you begin re-opening to the public.

- Wipe down of all hard surfaces
- CDC approved bleach solution certified to kill bacteria and viruses (including coronavirus).

ADD ON: JANITORIAL SERVICES

- Vacuuming
- Sweeping
- Mopping
- Waste removal

ADDITIONAL SERVICES:

LIFECYCLE SERVICE SOLUTIONS
